

## PORTABLE BRAZING EQUIPMENT

Portable brazing and heating torches are an essential item for plumbers and service industry technicians for many applications. Designed to fit directly to a MAP//Pro™ (or equivalent) Cylinder, the Tesuco Hand Brazing Torch comes with Piezo auto-ignite functionality. With a plastic handle, and a stainless steel barrel and brass tip, it is durable and reliable. The swirl flame tip gives a stable flame in the wind, better combustion and an expanded heat zone with a flame temperature using the MAP//Pro™ gas of up to approximately 1450°C.
